

FED 2020 - Press Release

5G FED CONFERENCE *in collaboration with* ASSOTELECOMUNICAZIONI

Lucca, April 13, 2020 - Comunicare Digitale is proud to announce the organization of the **5G FED CONFERENCE**, included in the **LUCCA 2020** events, thanks to the important collaboration reached with ASSOTELECOMUNICAZIONI, the trade association which, in the Confindustria system, represents the telecommunications chain in Italy.

The event is scheduled for **November 19, 2020, from 10.00 to 13.30** in the Plenary Hall of the Real Collegio di Lucca, venue of the events related to the European Digital Forum, which in 2020 cuts the 17 editions.

The participation of the main market players, telcos, industry, stakeholders, public and private associations, representatives of European and Italian institutions, the main 5G reference hubs is expected.

"With great enthusiasm we return to Lucca to participate in the **5G FED Conference**, says **Laura Di Raimondo**, Director of Asstel-Assotelecomunicazioni. For Asstel it is a priority to continue to inform and train on the potential and new services that will be enabled thanks to the fifth generation mobile network, destined to completely change the way we connect to the network and communicate between people and objects".

"From services for integrated health care and road safety, passing through new business models and the integration of production processes in industry 4.0, up to professional enrichment for millions of workers. The creation of networks 5G - underlines Laura Di Raimondo, it will lead us to evolve the way we have conceived everyday life so far. "

"The **November 19th** event in Lucca will be the perfect opportunity - for the companies associated with Asstel - to present successful projects and case histories with a view to sharing the best experiences of use of 5G technology by communities."

The **5G FED CONFERENCE** is part of the events of the **17th EUROPEAN DIGITAL FORUM** (from 19 to 20 November 2020), to which **SMPTE** has also joined which will shortly announce the **3rd WORKSHOP** dedicated to IP, thanks to the commitment of the Italian section.

Assotelecomunicazioni Asstel

*In the Confindustria system, **Asstel** represents the entire TLC chain, which has 130,000 employees and includes companies that manage fixed and radio-mobile telecommunications networks and digital accessory services, manufacturers and suppliers of user terminals, manufacturers and suppliers of network infrastructures, telecommunications equipment and software services, managers of network services and infrastructures, also outsourced, managers of Customer Relationship Management and Business Process Outsourcing services.*
